

CHELIMALA HEMANTH

Java Full Stack Web Developer

Anantapur, Andhra Pradesh | +91 7013569762 | hemanth2662n@gmail.com

LinkedIn: [linkedin.com/in/hemanth-chelimala-a55b79253](https://www.linkedin.com/in/hemanth-chelimala-a55b79253) | GitHub: github.com/heman2662777

PROFESSIONAL SUMMARY

AI & Data Science graduate with a strong foundation in Java Full Stack Web Development and hands-on experience developing database-driven web applications. Proficient in Core Java, OOP, Advanced Java, JDBC, Servlets, HTML5, CSS3, SQL, and MySQL, with practical experience building authentication, database integration, and application workflows. Seeking an entry-level Java Full Stack Developer or Software Engineer role.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Java Development: Core Java, OOP, Advanced Java, JDBC, Java Servlets

Frontend: HTML5, CSS3, Responsive Web Design

Databases & Tools: MySQL, Git, GitHub, VS Code

Core Concepts: Object-Oriented Programming, CRUD Operations, Database Connectivity, Authentication, Exception Handling, Problem Solving

PROJECTS

PROJECT 1 — TastyTap — Online Food Delivery Application

Technologies: Java, Java Servlets, JDBC, MySQL, HTML5, CSS3, Git, GitHub

- Developed a responsive full-stack food delivery application with user authentication, restaurant browsing, menu management, shopping cart, and order placement.
- Integrated MySQL using JDBC for database connectivity and management of user, menu, cart, and order data.
- Applied OOP principles and Java Servlet-based backend architecture to build structured, database-driven application workflows.

PROJECT 2 — Rice Type Classification Using CNN

Technologies: Python, TensorFlow, CNN, OpenCV

- Developed a CNN-based image classification model to identify five rice varieties with 92% classification accuracy.
- Applied image preprocessing using OpenCV and deep learning techniques to prepare and classify image data.
- Evaluated the CNN model to measure classification performance and improve prediction results.

PROJECT 3 — Credit Score Predictor & Risk Assessment

Technologies: Python, Scikit-learn, MySQL, Microsoft Excel

- Developed a machine learning model to predict customer creditworthiness with 85% prediction accuracy.
- Performed data preprocessing, feature engineering, and model evaluation for financial risk assessment.
- Used Python, Scikit-learn, MySQL, and Excel for data processing, analysis, and structured risk assessment.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science | 2026

Kandula Obul Reddy Memorial College of Engineering, Kadapa | CGPA: 8.3/10

Intermediate — MPC | 2022

Swamy Vivekananda Junior College, Anantapur | Percentage: 77.5%

Secondary School Certificate — SSC | 2020

Z.P. High School, Peddapappur | Percentage: 92.66%

CERTIFICATIONS & ACHIEVEMENTS

- Artificial Intelligence & Machine Learning — SmartBridge
- Big Data — NPTEL
- Quantum Computing — SkillDzire
- Ranked among the Top 2 performers in the B.Tech Artificial Intelligence & Data Science program
